

The Whiteley Homes Trust

**Information for those planning to visit family and friends  
living in one of our cottages**

Residents can now meet up to six visitors at a time from the same household or bubble in their cottage if they wish to. For safety reasons we advise all visitors meeting indoors to wear a face mask and to maintain social distancing of two metres if possible.

Outdoor visits remain a safer option however (weather permitting) and are encouraged either in the residents' garden/terrace or elsewhere in the village if preferred.

We look forward to welcoming the relatives and friends of our residents back to Whiteley and thank you for your support.
